

The O&GD Central Ltd., as a company engaged in oil and gas exploration and production, expresses its dedication to achieving a high level of occupational health and safety, as well as environmental performance in its operations. Our company has developed the principles of environmentally conscious and safe work, which are supervised for continuous improvement, a fundamental value that guides us in our business life:

Leadership Commitment:

- The management is committed to supporting occupational health and safety goals.
- We regularly review and update the policy, taking into account current regulations and corporate objectives.
- We work to make the health and safety of our employees a primary priority at all times.
- We continually improve our workplace health and safety systems.

Compliance:

- We continually ensure that both our occupational health and safety, and environmental management systems comply with relevant laws and our business requirements.

Risk assessment and hazard management:

- We identify, assess, and manage occupational health and environmental risks throughout all business processes

Communication and training:

- We consistently inform and educate employees about occupational health and environmental regulations and changes.
- We provide the necessary resources and support for employee training and development.

Environmental Performance:

- We continuously monitor and assess the environmental impacts of our business activities.
- Our goal is to apply environmentally friendly operational and practices.

Performance Measurement and Evaluation:

- We regularly monitor and measure our occupational health and safety, and environmental performance.
- The results are used for analysis and implementations of appropriate training, corrective actions, resulting in continuous improvement in our HSE performance.
